

Green de Corp. Limited - Case-Study (15)

## **PROJECT INFORMATION**

**CLIENT:** Montreal City Hall

**LOCATION:** Montreal, Canada.

**COMPLETION YEAR:** 2019

**SYSTEM / PRODUCT INSTALLED:** "GVA Lighting" LIRA-RGBW

**PROJECT BRIEF:** GVA Lighting was asked to replace the old custom monochromatic uplights with more durable and color changing narrow beam fixtures. One of the requirements was that the new fixtures had to fit within custom made enclosures that previously housed the old lights. LIRA-RGBW with 3000K white was selected as the fixture of choice, and 474 units of them were installed in pairs uplighting the window arches all over the facade of this historical landmark.
