

### Green de Corp. Limited - Case-Study (30)

## **PROJECT INFORMATION**

**CLIENT:** Top Vastgoed Planontwikkeling bv.

**LOCATION:** Shopping Centre de Gooische Brink Hilversum, the Netherlands

**COMPLETION YEAR:** 2017

**SYSTEM / PRODUCT INSTALLED:** "VAN DOORN" AURA custom pendant light

**PROJECT BRIEF:** Custom AURA is a concept that can be used to realize festive lighting in shopping centres "de Gooische Brink", the AURAs have ensured a fine ambience by breaking the height of the "greenhouse". For the first time an AURA of 5 meters diameter is installed. The plan was created by architect Hans Ruijsenaars and visualized in 3-D and "photometrically" calculated by VAN DOORN. AURA chandeliers are tailor-made, and there are many possibilities to determine colours, materials and light sources per project. It is the wish of the designer to create an "old parchment" image that is to complement the wooden façade elements.
